

AUG/SEPT 2011 **SUDAN AFRICAN MISSION**

Paul & Marilyn Douglass Phone (503) 665-1069, PO Box 187 Gresham, OR 97030

There are 100 Native Sudanese, ordained Evangelists with college degrees preaching in their home towns. They take turns today coming to Malek to teach 40 to 60 new Students in their own language at ABC. There are now a total of 160 Evangelists, including students, serving Christ in growing churches in Sudan. Prayers requested!!

CHURCH BUILDING AT MALEK from Yournew

We are praying daily to our God to bless us with funds for the church building. Our building collapsed with extreme heavy rains in our roof over a year ago. We have a very large congregation at Malek worshipping at open place, but during the rain we cannot conduct the services. The plan to have a church building will give a big encouragement to the community to come to church and give lives to Jesus as their Lord. The church members have made 6000 14'x10'x7' concrete blocks for walls of the building. We appeal to contributors for \$30,000.00 for rafters, roofing, doors and paint. We want it to appear like the Doctors Guest House in the background.

At my returning to Aweil after I have delivered the medicines to Malek Christian hospital, I will come to Sudan capitol, Juba to register church registration and the church constitution.

Thank you very much for your support and we appreciated everything you do for us. May God bless you. **Yournew Wol**

MALEK HOSPITAL REPORT From Yournew

God is good for us and He has always been leading us in the ministry. I have reported to you that Angelo Atak and Luka Gok came with me to Nairobi for treatment. I have taken them to Dr. Moses who has been our doctor for many years. He conducted some medical tests and gave them good treatment and within a short time their condition improved, compared to their state for past four weeks. They have returned back to Aweil and right now they are ministering at their churches.

After we bought the medicines at Nairobi, we sent the plane load to Malek for Dr. Philip Garang and the nurses and community as well. They were waiting at Malek airstrip to receive medicines. These medicines are a blessing to our Aweil community. When the medicine arrived to the area there were many people suffering from malaria and typhoid because of the shortage of the medicines at the hospital.

Dr. Philip reports many people of Aweil area need medicines and the large number of people were treated. They work 24 hours a day because there is a malaria and typhoid outbreak in the region. God is good because He has saved the lives of many people from very dangerous diseases. Our Hospital is giving the best treatment to the people of Aweil area.

I am kindly asking you to keep praying for our people so that God will change their hearts and know Him better.

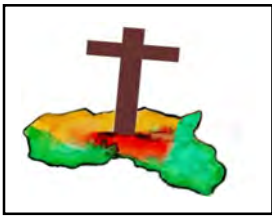

CHILDREN FEEDING PROGRAM from Yournew

The schedule is proceeding very well and helping many children both from the church congregation and the region. This has impacted largely on the church role in the society and the message of feeding the poor not only with the spiritual food but also physical basic needs. At the moment, the program is carried out from the church compound. Most of the children who benefit from the program are totally poor and orphans who do not have homes or parents. For better service and effectiveness of the program, we suggest to build a children's home of which will be dedicated for this program. At the moment, we have already drilled a borehole for water and started fence construction. Then we look forward to construct building premises and services for the children home. This will include spaces organized for prayers, dormitories, assembly halls, staff quarters and toilets for those children with guardians. They will be operating from their homes and still benefit from the program on food and education. The borehole was done after our request to the Government was in line with our projected vision for future development of the proposed children home.

RETURNEES FROM NORTH SUDAN from Yournew

God is good to bring many Sudanese from the North to Southern Sudan as a result of gaining the Independence of the South Sudan Government. Most of the people from the North who had been displace by war returned back to the south. Wherever they have been settled, there is a lot required for human habitant, as being the first time homes. Life is hard. There is lack of shelters, no food for the large population of the returnees, no facilities for human use as the resettlement had not been adequately prepared before resettlement started. Most of the returnee from the north do not recognize Christ as Lord since they have been living under the Islamic rule and fear of persecution if found teaching or living like Christ. Some have never heard about Christ since they were born.

I had earlier reported to you that we have received large number of returnees into our churches. Every day many people give their lives to Jesus Christ as their savior through baptism. There are many children and mothers suffering from malaria and the lack of food. Some do not have any place to sleep or to get food. Few who are lucky are the ones who came to church and get some sorghum to feed them for some few days.

RETURN SERVICE REQUESTED

Some of the 350 children staying at the Bible College dorms.

The train tracks to Khartoum had been bombed out during the war but have been repaired and now bring unwanted people weekly from the North. Due to the rapid growth of population in the south, we are in need of Holy Bibles and life is threatened by hunger and many of the returnees have run to the church as their only solution for basic needs. I am appealing to you if you can increase the funds. There are no clear plans to receive returnees and settle them with shelters and food from either the UN or our government. This has put a lot of pressure on church to manage the same and I am appealing to you if you can increase the funds you have been sending to the poor, so that we can be able to provide for those children and mothers who stay at the College dorms and class rooms. Bible College classes are on hold until space is available. This is an emergency!

REPORT FROM PAULINO

The Sudan church of Christ is rapidly growing day by day since the influx of returnee from Northern sector. However, Yournew was the commissioner of state Referendum and well offered quality services to people of Aweil in biblical and spiritual way as a Christian leader.

In Malek we have established “Pan Muith Abeer” orphanage home with total number of 350 children being fed and housed at the Bible College Compound. Yournew is planning with

Paulino Malou opened up another centre in Aweil South at Aweil Town 40 miles away as well.

Another in the village of Chelkou we have “panmeith aber” orphanage home with many children. The Christian community senior secondary school with total of 27 children students, 7 girls and 20 boys. The orphanage home has the total number of 240 children and 20 Christians in the Church who accepted to be born again and become children of God through baptism.

We need teaching materials for the school classes in Aweil West county. Everyone is struggling for an existence.

HOSPITAL REPORT DISEASE OUTBREAK

Late in July In the beginning of July and the month of August, 2011 there were disease out breaks that occurred. The outbreak of measles killed the total 120 children..

And in the August, 2011. There are acute malaria killed many children under 5 years of age and adults. 96 children and 104 adults died and the rest are still in bed and the medical people are working from 6.00am – 6.00-pm and come back at night to look at the admitted patients.

In August 961 were admitted under 5 years.

143 admitted ages 5-12. Over 12 years 151 children.

36 of the 1255 children admitted died.

In the month of July 4,940 patients were admitted to the Malek Hospital with major diseases.

We are here praising God to bless our hospital to progress to be a full qualified hospital and control the serious cases that kill many children and elderly. Remember us in your prayers.

Nurses Phillip, Tito, Lino, & Francis are the ones watching the patients at night giving medication at all hours.

Simon, Paul, Daniel and George writes: Our church is growing well, the membership is increasing every day. Our Bible sharing became very helpful. Many people learned about Jesus and gave their lives to him. You cannot believe for the short time our congregation have grown at this level we are in today. We pray that God bless you so that you can support with Bibles. We do have some Bibles but are not enough for Evangelists and Christians at large. May God bless South Sudan as a new country so that we can be able to rebuild our nation South Sudan by teaching them the word of God. Thank you and God bless. signed " Us 4 men who preach together".
